Portfolio: <https://victor-donald.github.io/IT-Portfolio/hardware-optimization.html>

PROFESSIONAL SUMMARY

- IT Tier 1 Help Desk & Remote Support Specialist with 2+ years resolving hardware, software, and account-access issues across higher education, healthcare, and administrative environments.
- Experienced in remote troubleshooting, phone and chat queue management, ticket documentation, and escalating complex issues to senior IT teams.
- Skilled in Windows OS support, Active Directory access management, remote desktop tools, and structured diagnostic workflows that restore user productivity quickly.
- Known for delivering clear, layman-friendly technical communication and de-escalating high-stress situations with calm, step-by-step guidance.
- Strong academic foundation: **MBA, BS in Network & Communications Management, Google IT Support Certificate, and CompTIA A+ (in progress)** — demonstrating continuous professional growth and alignment with Tier 1 certification expectations.

TECHNICAL SKILLS

Technical support & Troubleshooting

Tier 1 Support

- Remote Troubleshooting (Phone/Chat)
- OS Configuration
- Software/Driver Installation
- Account Access Support
- Password Resets
- Active Directory (Provisioning & Resets)
- Windows OS Support
- Remote Desktop Tools (Amazon Workspaces, RDP)
- High-Volume Queue Management
- Ticket Documentation (Remedy/BMC ITSM)

Hardware & Device Maintenance

- Desktop/Laptop Repair
- SSD Upgrades

- Peripheral Setup
- Firmware Updates
- Device Disassembly/Reassembly
- Thermal Troubleshooting

Systems & Tools

- Microsoft 365
- Amazon Workspaces
- Windows OS
- Basic macOS Support
- CRM & Database Systems
- EHR/Health Information Systems
- VPN troubleshooting
- Network diagnostic
- Ticketing system proficiency

Customer Service & Communication

- Clear Technical Communication (Layman's Terms)
- Incident De-escalation
- Professional Phone/Chat Support
- User Training
- Strong Organizational Skills

PROFESSIONAL EXPERIENCE

Winston Benefits | Remote

Customer Service Representative (Contract via Robert Half) 10/2024 – 11/2024

- Resolved **50–80 daily inquiries** across phone and email channels, consistently meeting response-time SLAs and reducing backlog during peak registration periods.
- Assisted students and faculty with portal navigation, account access, and password resets, achieving a **95% first-contact resolution rate** for routine access issues.
- Documented all service tickets with **99% accuracy**, ensuring clear escalation paths and reducing follow-up delays by **20%**.
- Escalated complex technical issues to IT support teams and coordinated follow-up, contributing to a **15% improvement** in resolution speed for multi-department cases.

Precision Wellness | Washington, DC

Health Information Technician 09/2023 – 04/2024

- Recommended Amazon Workspaces and analyzed system requirements to improve remote accessibility and increase operational efficiency by 15%.
- Built and maintained a medical database web portal containing disease, illness, and provider information.

- Integrated Bluetooth hardware functionality and deployed a custom database to enhance application usability.
- Provided Tier 1 support for patient portal access, account issues, and basic technical troubleshooting.

National League for Nursing | Washington, DC

Administrative Coordinator (Contract via Robert Half) 01/2022 – 02/2023

- Entered and updated 60–100 member records daily with 99% accuracy.
- Coordinated NCLEX and HBCU reporting workflows with strict quality control.
- Provided operational and technical administrative support to streamline reporting processes.
- Resolved account access, login, and system navigation issues and escalated complex cases to IT support teams.

DeVry University | Arlington, VA

Tier 1 Help Desk Technician (Part-Time Student Worker) 10/2010 – 12/2012

- Served as the primary technical point of contact, resolving 20–30 daily hardware, software, and network issues.
- Logged all interactions in Remedy ITSM with 100% accuracy.
- Diagnosed and resolved software installations, configuration issues, and Active Directory account support.
- Delivered step-by-step troubleshooting guidance, reducing Tier 2 escalations by 25%.
- Provided remote and in-person support for login issues, connectivity problems, and system errors.

George Washington University | Washington, DC

Customer Service Representative 07/2008 – 03/2020

- Resolved high-volume user inquiries across phone and email channels. • Assisted with portal navigation, account access, and password resets.
- Documented service tickets accurately and escalated complex issues while meeting strict SLAs.
- Communicated technical steps clearly to non-technical users, improving issue resolution and reducing repeat calls.

EDUCATION

MBA — Keller Graduate School of Management Graduated June 2024

BS in Network & Communications Management — DeVry University Graduated June 2012

Graduate Certificate in Cybersecurity & Information Assurance In Progress — Expected February 2027

TECHNICAL PROJECT

PC Hardware Optimization & Storage Upgrade

January 2024 – May 2024 **Project Link:** <https://victor-donald.github.io/IT-Portfolio/hardware-optimization.html>

Context & Value Improved device reliability and extended hardware lifespan for refurbished and new systems, including Surface Go 2, Surface Pro X, Surface Pro 7+, Lenovo desktop, and HP desktop.

Key Contributions • Performed physical hardware maintenance and internal component upgrades including SSD replacements. • Managed disk partitioning, drive alignment verification, and storage optimization. • Used precision toolkits to safely disassemble, repair, and reassemble devices.

Outcome Improved system responsiveness by **25–40%** and reduced recurring hardware issues across **five upgraded endpoints**.

Skills SSD Replacement

- Disk Partitioning
- Storage Optimization
- Hardware Diagnostics
- Precision Toolkit Handling

OS & Firmware Recovery and Device Restoration

March 2024 – June 2024 **Project Link:** <https://victor-donald.github.io/IT-Portfolio/os-firmware-recovery.html>

Context & Value Recovered non-booting systems and restored devices impacted by corrupted firmware, OS failures, and misconfigured BIOS/UEFI settings — reducing device replacement costs and improving operational continuity.

Key Contributions • Performed OS reinstallation, firmware recovery, and BIOS/UEFI configuration on multiple Windows devices. • Used manufacturer recovery tools (Microsoft Surface Recovery, Lenovo Vantage, HP Support Assistant) to restore bricked or unstable systems. • Diagnosed bootloader failures, driver conflicts, and firmware inconsistencies using structured troubleshooting workflows. • Documented recovery steps and created repeatable procedures for future device restoration.

Outcome Successfully restored **6 devices** to full functionality, reducing downtime and preventing unnecessary hardware replacement.

Skills Firmware Recovery

- OS Reinstallation
- BIOS/UEFI Configuration
- Bootloader Diagnostics
- Device Restoration

CERTIFICATION

- Google IT Support Professional Certificate — Completed September 2022
- CompTIA A+ — In Progress
